

Ortyn and The Aliens

Ortyn & The Aliens Theme

*We're Ortyn and The Aliens
We've come to Earth from outer space
Four extraterrestrials
Who'd like to join the human race*

We've trekked across the Milky Way to find a planet we prefer
We've settled on your lump of clay... it's cozier than Jupiter
We're wee Green Pods with big bug-eyes... you've never seen our like before
We're really odd... no one denies we're too peculiar to ignore

*We're Ortyn and The Aliens
We've come to Earth from outer space
Although we're not mammalians
We'd like to join the human race*

We'll make you chuckle when we sing... we'll give you our unearthly view
Of "Puppy Love on Saturn's Rings" and "Playtime At The Martian Zoo"
We're silly sods as Green Pods go... we'd never think to do you wrong
We hope that you'll enjoy our show and know you're right where you belong

*With Ortyn and The Aliens
Your friends who've come from outer space
Although we're not Australians
We'd like to join the human race*

*We're Ortyn and The Aliens
Four extraterrestrials
Not red-blooded mammalians
Or "G'day, Mate!" Australians
We've come to Earth from outer space
With keyboard... drums... guitar and bass
If bug-eyed Green Pods you'd embrace
We'd love to join the human race!*
